### WHAT IS HORIZON®

Horizon® is designed to significantly reduce polluting vapours and odours released into the air which can be harmful or irritating to the user or occupants of the areas being painted. With advanced technology, Cloverdale Paint has eliminated the harmful chemical components as defined by GreenWise® and the odour causing ingredients without compromising the performance characteristics of the paint. Interior Horizon® paints have ZERO VOCs, (volatile organic compounds) before adding colourant, reducing our environmental footprint and preserving cleaner air for our future.
